

Make the most of ACETECH

ET ACETECH launched in the year 2006, has turned into the country's largest exposition on architecture, building materials, innovation and design. While its magnitude and scale remain clearly incomparable; over the years the exhibition has grown from 1,22,000 sq. ft. to a total area of 42,75,000 sq. ft. expanding its footprint across major cities such as Mumbai, Delhi, Bengaluru and Ahmedabad. The exhibition was initially conceptualized to bring together architects, designers, developers, engineers, contracting companies and all other industry experts under one roof for displaying and sourcing products and services expediently, and over the years, has gone several notches further by turning into a premier platform for hosting and promoting innovations in the industry and creating better business networking opportunities among decision makers of procurement companies and suppliers.
